Living in the Atmosphere of the Sun

space weather

## Sun Earth Day- International Heliophysical Year

**Have you ever thought  
about the fact that  
we are... Living in the  
Atmosphere of the Sun?!**

**Listen to podcasts about the history  
of solar science and current  
research. Do fun activities to learn  
about science and math. Follow  
Technologies Through Time. Become  
a Space Weather Reporter: access,  
analyze and record observatory and  
NASA satellite data. View panel  
discussions featuring scientists and  
educators.**

**Join us in the celebration of  
the International Heliophysical Year  
50 years of Space Weather research**

**Questions to ask about Space Weather  
How thick is the atmosphere of the Sun?  
How do we track a solar storm?  
What is space weather?  
How does space weather affect Earth?  
Does space weather affect other planets?**
